Skills :
- Expertise : React JS | JavaScript ES6 | HTML5 | CSS3 | Tailwindcss | Bootstrap
- Comfortable : React Router | Express JS | Mongodb No SQL
- Familiar : Node.js | Next.js | Axios | Tanstack Query
- Tools : Git | Github | VS Code | Firebase | Vercel | Netlify | Linux OS
- Extra Skills : SEO Expert | Team Adjustment | Time Management | Quick Learner

Project – 1 :
Buy Toy Cars – Live Link | Fontend – Code | Backend – Code

I am building this site for selling toy cars and it is under construction. A saller can post thier many different toys for selling. Other side a customer can buy a toy from this website. Actually in this website some functionality is pending.
- Responsive mobile view experience with best user experience.
- Technologies : React.js | React Router | Tailwindcss | Firebase | Mongodb | Vercel | Express.js
- Will Be Added : Redux | Tanstack Query | Axios | Payment Gateway | Mongoose

Project – 2 :
Grilled Corn Chef – Live Link | Fontend – Code | Backend – Code

Basically this website is a recipe chef website. Here a chef can display his favourite recipe for food lover. In this website A user can read details a chef item and comment about his recipe. This website all data stored in mongodb and retrive to show front-end.
- It's responsive with a chef manageable user experience like post add, delete, update etc
- Technologies : React.js | React Router | Tailwindcss | Firebase | Mongodb | Vercel | Node.js
- Will Be Added : Tanstack Query | Axios | Payment Gateway | Mongoose | Aos/swiper.js

Project – 3 :
Learn English – Live Link | Fontend – Code | Backend – Code

This is my first full stack website with MERN technology. In this website i create three role as an admin, instructor & normal student. Here one have admin that can manage all parts from front-end. A instructor post a course and a student enrolled this course with many functionalities.
- Its's responsive & full stack MERN website, as well admin controlable user experience.
- Technologies : React.js | React Router | Tailwindcss | Firebase | Mongodb | Vercel | Node.js Cors | Axios | React Query | Payment Gateway | JWT | Framer Motion | Aos
- Will Be Added : Redux | Another Payment Methods | Next.js | Mongoose
